Duplicate Vehicles Cheat/Glitch

Start with any customized car, and get it set up as you want. Switch to a different character and drive by the character in the customized car, and then hang out with him. Get out of your vehicle and drive the customized car. When you return with the customized car after hanging out with the other character, there will be another of the same customized car. Get out of the car, and take the duplicated customized car. Then, switch back to the other character, and take the original customized car. BOOM!

Now, place the vehicle you want to duplicate inside that character's garage and leave the garage. Save the game and switch to the character you want to receive the duplicated car. Travel to the garage of the previous character where you saved the car. Switch back to the original character who owns the garage and take the car out of it. Get out of the car and have both characters meet each other., Immediately switch to the other character, get in the vehicle, and save it in that character's garage. The original character now must pay a small \$250 fine to the impound lot to get the vehicle back... BUT it will be duplicated! Both characters will now own the same vehicle. Repeat this as many times as desired. When you use this exploit with the Truffade Adder (Bugatti Veyron) super car, it is worth \$1 million.
